

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

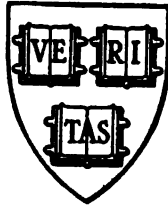

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

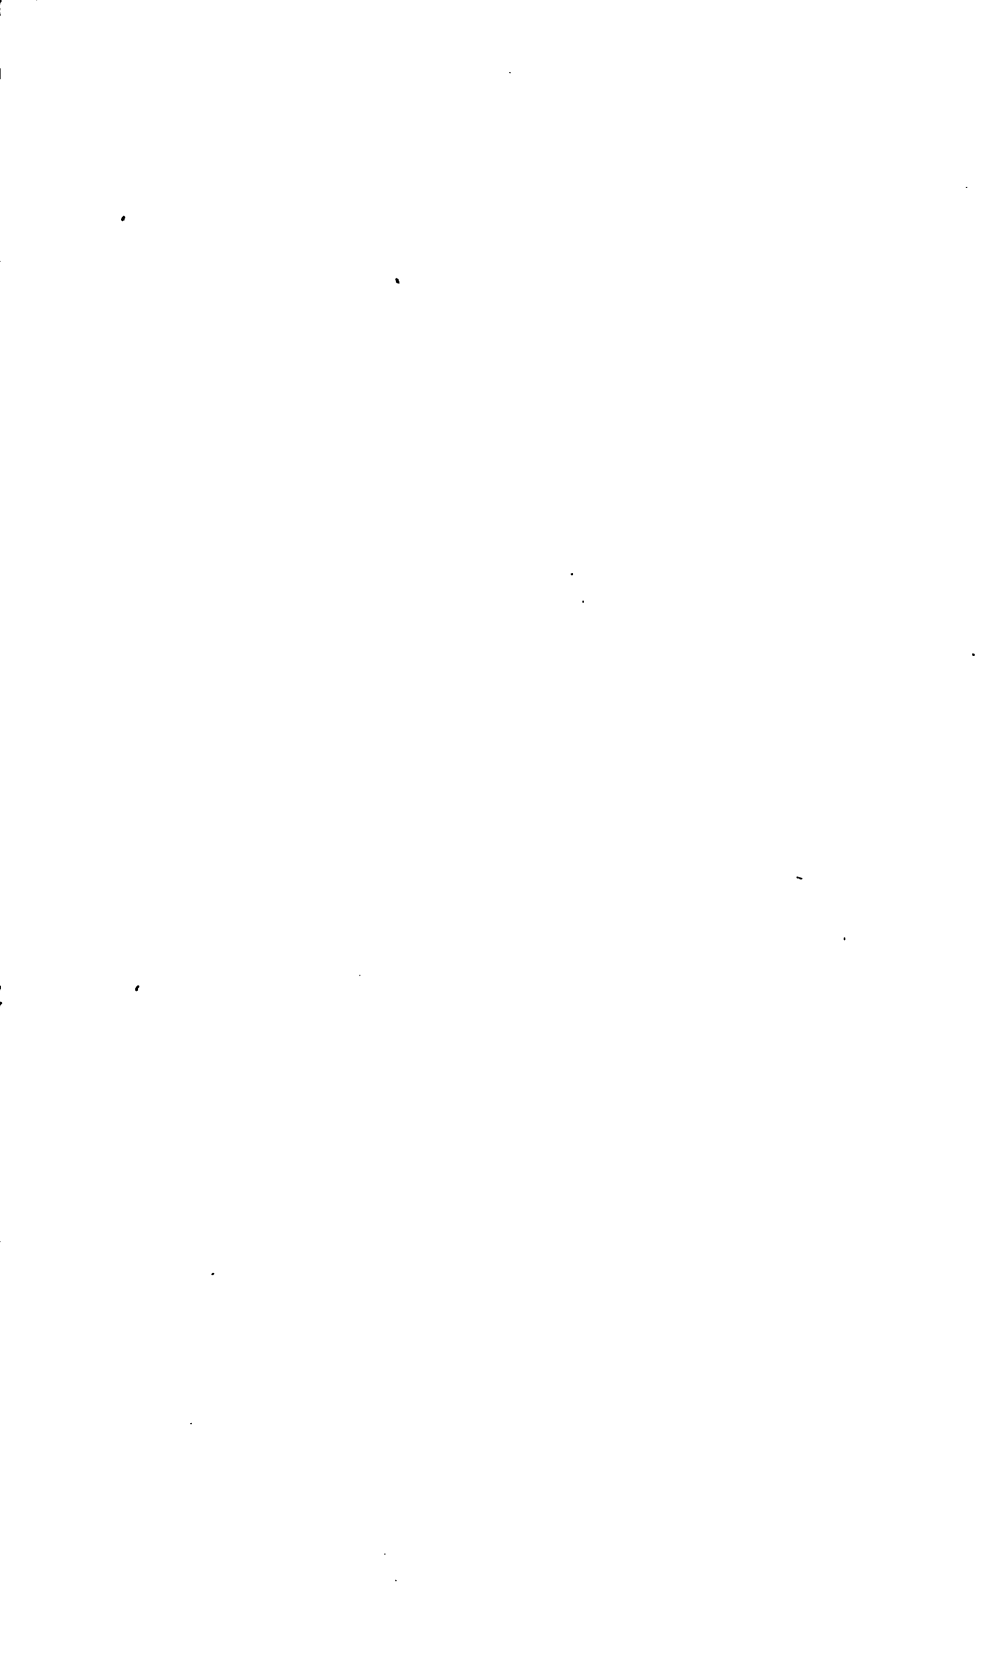

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. U. S. Government.

PART 1, Group 2, contains mainly the titles of pamphlets, leaflets, and contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (books proper), including also, however, preliminary reports of court decisions, local directories, herd-books, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains in two separate alphabets the titles for the entries made in Class "D," Dramatic Compositions, arranged alphabetically by title and the titles for the entries made in Class "E," Maps and Charts, arranged alphabetically by the subject word of each title.

For index of proprietors in these three classes see the end of the Catalogue.

The Catalogue of Copyright Entries appears each week. The weekly issue of the titles for pamphlets, etc., dramas, and maps would, however, necessitate a possible search through 52 alphabets in each year for each of the three classes, in order to locate any given title. This inconvenience is avoided by printing all the completed entries of each class in monthly alphabets, so that a search for any title during the year requires an examination of only 12 indexes instead of 52, as formerly.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

PART 1, GROUP 2.

To save space the copyright notice after each title is abbreviated. Foreign book titles entered under the *ad interim* act of March 3, 1905, are followed by the statement "Reservation no." The full notice would read: "Privilege of copyright in the United States reserved under the act approved March 3, 1905, by A. B."

No statement is made for United States titles as to receipt of copies when the two copies have been received on the day of entry. Thus the notice after the first title, if printed in full, would read: "Copyright by Stephen I. Adam, Philadelphia, Pa., Class A. XXc, no. 225462, Dec. 19, 1908; 2 copies received December 19, 1908."

Harvard College Library

MAR 29 1909

From the
U. S. Government.

PART 1, Group 2, contains mainly the titles of pamphlets, leaflets, and contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (books proper), including also, however, preliminary reports of court decisions, local directories, herd-books, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains in two separate alphabets the titles for the entries made in Class "D," Dramatic Compositions, arranged alphabetically by title and the titles for the entries made in Class "E," Maps and Charts, arranged alphabetically by the subject word of each title.

For index of proprietors in these three classes see the end of the Catalogue.

The Catalogue of Copyright Entries appears each week. The weekly issue of the titles for pamphlets, etc., dramas, and maps would, however, necessitate a possible search through 52 alphabets in each year for each of the three classes, in order to locate any given title. This inconvenience is avoided by printing all the completed entries of each class in monthly alphabets, so that a search for any title during the year requires an examination of only 12 indexes instead of 52, as formerly.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

BOOKS.

PART 1, GROUP 2.

To save space the copyright notice after each title is abbreviated. Foreign book titles entered under the *ad interim* act of March 3, 1905, are followed by the statement "Reservation no." The full notice would read: "Privilege of copyright in the United States reserved under the act approved March 3, 1905, by A. B."

No statement is made for United States titles as to receipt of copies when the two copies have been received on the day of entry. Thus the notice after the first title, if printed in full, would read: "Copyright by New England railway pub. co., Boston Mass. Class A, XXc, no. 224697, Dec. 10, 1908; 2 copies received January 28, 1909."

Nos. 9-12

MARCH, 1909

WASHINGTON
GOVERNMENT PRINTING OFFICE

1909

Harvard College Library

APR 6 1909
From the
U. S. Government.

PART 1, Group 2, contains mainly the titles of pamphlets, leaflets, and contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (books proper), including also, however, preliminary reports of court decisions, local directories, herd-books, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains in two separate alphabets the titles for the entries made in Class "D," Dramatic Compositions, arranged alphabetically by title and the titles for the entries made in Class "E," Maps and Charts, arranged alphabetically by the subject word of each title.

For index of proprietors in these three classes see the end of the Catalogue.

The Catalogue of Copyright Entries appears each week. The weekly issue of the titles for pamphlets, etc., dramas, and maps would, however, necessitate a possible search through 52 alphabets in each year for each of the three classes, in order to locate any given title. This inconvenience is avoided by printing all the completed entries of each class in monthly alphabets, so that a search for any title during the year requires an examination of only 12 indexes instead of 52, as formerly.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

BOOKS.

PART 1, GROUP 2.

To save space the copyright notice after each title is abbreviated. Foreign book titles entered under the *ad interim* act of March 3, 1905, are followed by the statement "Reservation no." The full notice would read: "Privilege of copyright in the United States reserved under the act approved March 3, 1905, by A. B."

No statement is made for United States titles as to receipt of copies when the two copies have been received on the day of entry. Thus the notice after the first title, if printed in full, would read: "Copyright by Abbey co., Hinsdale, Ill., Class A, XXc, no. 229955, Feb. 3, 1909; 2 copies received Feb. 15, 1909."

From the
U. S. Government.

PART 1, Group 2, contains mainly the titles of pamphlets, leaflets, and contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (books proper), including also, however, preliminary reports of court decisions, local directories, herd-books, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains in two separate alphabets the titles for the entries made in Class "D," Dramatic Compositions, arranged alphabetically by title and the titles for the entries made in Class "E," Maps and Charts, arranged alphabetically by the subject word of each title.

For index of proprietors in these three classes see the end of the Catalogue.

The Catalogue of Copyright Entries appears each week. The weekly issue of the titles for pamphlets, etc., dramas, and maps would, however, necessitate a possible search through 52 alphabets in each year for each of the three classes, in order to locate any given title. This inconvenience is avoided by printing all the completed entries of each class in monthly alphabets, so that a search for any title during the year requires an examination of only 12 indexes instead of 52, as formerly.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

BOOKS.

PART 1, GROUP 2.

To save space the copyright notice after each title is abbreviated. Foreign book titles entered under the *ad interim* act of March 3, 1905, are followed by the statement "Reservation no." The full notice would read: "Privilege of copyright in the United States reserved under the act approved March 3, 1905, by A. B."

No statement is made for United States titles as to receipt of copies when the two copies have been received on the day of entry. Thus the notice after the first title, if printed in full, would read: "Copyright by Western Ad. Combine, Seattle, Wash., Class A, XXc, no. 232855, Feb. 25, 1909; 2 copies received Feb. 25, 1900.

JUN 16 1909

From the
U. S. Government.

PART 1, Group 2, contains mainly the titles of pamphlets, leaflets, and contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (books proper), including also, however, preliminary reports of court decisions, local directories, herd-books, and other annuals, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains in two separate alphabets the titles for the entries made in Class "D," Dramatic Compositions, arranged alphabetically by title and the titles for the entries made in Class "E," Maps and Charts, arranged alphabetically by the subject word of each title.

For index of proprietors in these three classes see the end of the Catalogue.

The Catalogue of Copyright Entries appears each week. The weekly issue of the titles for pamphlets, etc., dramas, and maps would, however, necessitate a possible search through 52 alphabets in each year for each of the three classes, in order to locate any given title. This inconvenience is avoided by printing all the completed entries of each class in monthly alphabets, so that a search for any title during the year requires an examination of only 12 indexes instead of 52, as formerly.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

BOOKS.

PART 1, GROUP 2.

To save space the copyright notice after each title is abbreviated. Foreign book titles entered under the *ad interim* act of March 3, 1905, are followed by the statement "Reservation no." The full notice would read: "Privilege of copyright in the United States reserved under the act approved March 3, 1905, by A. B."

No statement is made for United States titles as to receipt of copies when the two copies have been received on the day of entry. Thus the notice after the first title, if printed in full, would read: "Copyright by Charles Matthew Abbott, Watertown, Mass., Class A, XXc, no. 236897, Apr. 15, 1909; 2 copies received Apr. 8, 1909.

From the
U. S. Government.

PART 1, Group 2, contains mainly the titles of pamphlets, leaflets, and contributions to periodicals, and all other productions registered under the designation "book" not found in Group 1 (books proper), including also, however, preliminary reports of court decisions, local directories, herd-books, and annuals, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains in two separate alphabets the titles for the entries in Class "D," Dramatic Compositions, arranged alphabetically by title and the titles for the entries made in Class "E," Maps and Charts, arranged alphabetically by the subject word of each title.

For index of proprietors in these three classes see the end of the Catalogue.

The Catalogue of Copyright Entries appears each week. The weekly issue of titles for pamphlets, etc., dramas, and maps would, however, necessitate a poor search through 52 alphabets in each year for each of the three classes, in order to locate any given title. This inconvenience is avoided by printing all the copyright entries of each class in monthly alphabets, so that a search for any title during a year requires an examination of only 12 indexes instead of 52, as formerly.

The number at the end of each title, after the notice of copyright, is a copyright number by means of which reference is made in the index to this title.

BOOKS.

PART 1, GROUP 2.

leave space the copyright notice after each title is abbreviated. Foreign titles entered under the *ad interim* act of March 3, 1905, are followed by the word "Reservation no." The full notice would read: "Privilege of copyright in the United States reserved under the act approved March 3, 1905, No. 240272, May 24, 1909; 2 copies received May 24, 1909."

Statement is made for United States titles as to receipt of copies when the titles have been received on the day of entry. Thus the notice after the title, if printed in full, would read: "Copyright by The Acme, Kalamazoo, Mich., Class A, XXc, no. 240272, May 24, 1909; 2 copies received May 24, 1909."

NEWSPAPERS OR PERIODICALS, ETC.;

DRAMATIC COMPOSITIONS; MAPS AND CHARTS

NEW SERIES, VOLUME 6, GROUP 2

Nos. 26-30

JULY, 1909

WASHINGTON
GOVERNMENT PRINTING OFFICE

1909

Harvard College Library

SEP 7 1909

From the
U. S. Government.

PART 1, Group 2, contains mainly the titles of pamphlets, leaflets, and editions to periodicals, and all other productions registered under designation "book" not found in Group 1 (books proper), including also, preliminary reports of court decisions, local directories, hard-books, annuals, etc. The entries are arranged alphabetically by author, or, anonymous, by title. An asterisk (*) after the author's name indicates that author and copyright proprietor are the same. When the author and copyright are different, a separate statement is made at the end of the title, giving proprietor and his address.

Group 2 also contains in two separate alphabets the titles for the entries in Class "D," Dramatic Compositions, arranged alphabetically by title and for the entries made in Class "E," Maps and Charts, arranged alphabetically by the subject word of each title.

For index of proprietors in these three classes see the end of the Catalogue.

The Catalogue of Copyright Entries appears each week. The weekly issue of titles for pamphlets, etc., dramas, and maps would, however, necessitate a search through 52 alphabets in each year for each of the three classes, in order to locate any given title. This inconvenience is avoided by printing all the entries of each class in monthly alphabets, so that a search for any title during the year requires an examination of only 12 indexes instead of 52, as formerly.

The number at the end of each title, after the notice of copyright, is the number by means of which reference is made in the index to this title.

BOOKS.

PART 1, GROUP 2.

To save space the copyright notice after each title is abbreviated. Foreign book titles entered under the *ad interim* act of March 3, 1905, are followed by the statement "Reservation no." The full notice would read: "Privilege of copyright in the United States reserved under the act approved March 3, 1905, A. B."

No statement is made for United States titles as to receipt of copies when the no copies have been received on the day of entry. Thus the notice after the first title, if printed in full, would read: "Copyright by The Acme, Kalamazoo, Mich., Class A, XXc, no. 242899, June 24, 1909; 2 copies received June 24, 1909."

From the
U. S. Government.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries is published in four parts. Part 1, Group 2, issued monthly, contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (issued weekly), including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains, in three separate alphabets, the titles for the entries made in Class "C," Lectures, sermons, addresses, prepared for oral delivery, which are arranged alphabetically by author; Class "D," Dramatic compositions, arranged alphabetically by title; and Class "F," Maps, arranged alphabetically by the subject word of each title.

Under the Act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "A," Class A, Books; "C," Class C, Lectures, sermons, addresses, prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps. "©" stands for copyright of a published work, followed by date of publication; "© 1 c." implies copyright of an unpublished work, followed by date of receipt in the Copyright Office of the printed or manuscript copy; and "2 c." for two copies, followed by the date of their receipt. In the case of contributions to periodicals one copy of the issue or issues containing such contribution is required. "Reservation no." signifies the entries for foreign books made under the operation of the *ad interim* act of March 3, 1905.

Each number contains an index of the names of all copyright proprietors; the names of well-known authors of pamphlets, occasionally the titles of anonymous pamphlets, and the names of all authors of dramatic compositions. The annual index, furnished with the December issue, supplies in addition the titles of all dramas and the subject words of all maps.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.50 for 1909, and \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

WASHINGTON
GOVERNMENT PRINTING OFFICE
1909

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries is published in four parts. Part 1, Group 2, issued monthly, contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (issued weekly), including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains, in three separate alphabets, the titles for the entries made in Class "C," Lectures, sermons, addresses, prepared for oral delivery, which are arranged alphabetically by author; Class "D," Dramatic compositions, arranged alphabetically by title; and Class "E," Maps, arranged alphabetically by the subject word of each title.

Under the Act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "A," Class A, Books; "C," Class C, Lectures, sermons, addresses, prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps. "©" stands for copyright of a published work, followed by date of publication; "© 1 c." implies copyright of an unpublished work, followed by date of receipt in the Copyright Office of the printed or manuscript copy; and "2 c." for two copies, followed by the date of their receipt. In the case of contributions to periodicals one copy of the issue or issues containing such contribution is required. "Reservation no." signifies the entries for foreign books made under the operation of the *ad interim* act of March 3, 1905, and "Ad int. res." the entries for foreign books published abroad in the English language, under the operation of the Act of March 4, 1909, for which the deposit of only one copy is required.

Each number contains an index of the names of all copyright proprietors; the names of well-known authors of pamphlets, occasionally the titles of anonymous pamphlets, and the names of all authors of dramatic compositions. The annual index, furnished with the December issue, supplies in addition the titles of all dramas and the subject words of all maps.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.50 for 1909, and \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries is published in four parts. Part 1, Group 2, issued monthly, contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (issued weekly), including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains, in three separate alphabets, the titles for the entries made in Class "C," Lectures, sermons, addresses, prepared for oral delivery, which are arranged alphabetically by author; Class "D," Dramatic compositions, arranged alphabetically by title; and Class "E," Maps, arranged alphabetically by the subject word of each title.

Under the Act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons, addresses, prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps. "©" implies copyright in published work, followed by date of publication; "© 1 c." stands for copyright in published work, followed by date of receipt in the Copyright Office; "ms." stands for manuscript copy, and "2 c." for two copies, followed by date of receipt in the Copyright Office.

In the case of contributions to periodicals one copy of each title and one copy of the contribution is required. "Reservation no." indicates that the work is registered under the operation of the *ad interim* act of March 4, 1909. "Res." implies *ad interim* copyright registration, under which the work published abroad in the English language, for which no reservation is required.

Each number contains the names of the authors, publishers, and the names of all contributors, on pamphlets, and the names of all subjects furnished for the subject words of all maps.

The annual subscription price of the Catalogue of Copyright Entries is only for the calendar year, and is payable in advance by postal money order, express, or by check payable to the order of the Copyright Office, New York.

U. S. Government

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries is published in four parts. Part 1, Group 2, issued monthly, contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (issued weekly), including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains, in three separate alphabets, the titles for the entries made in Class "C," Lectures, sermons, addresses, prepared for oral delivery, which are arranged alphabetically by author; Class "D," Dramatic compositions, arranged alphabetically by title; and Class "E," Maps, arranged alphabetically by the subject word of each title.

Under the Act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons, addresses, prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps. "©" implies copyright registration of a published work, followed by date of publication; "© 1 c." stands for copyright of an unpublished work, followed by date of receipt in the Copyright Office of the printed or manuscript copy; and "2 c." for two copies, followed by the date of their receipt. In the case of contributions to periodicals one copy of the issue or issues containing such contribution is required. "Reservation no." signifies the entries for foreign books made under the operation of the *ad interim* act of March 3, 1905, and "Ad int. res." implies *ad interim* copyright registration, under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

Each number contains an index of the names of *all* copyright proprietors; the names of well-known authors of pamphlets, occasionally the titles of anonymous pamphlets, and the names of all authors of dramatic compositions. The annual index, furnished with the December issue, supplies in addition the titles of all dramas and the subject words of all maps.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.50 for 1909, and \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

WASHINGTON
GOVERNMENT PRINTING OFFICE
1909

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries is published in four parts. Part 1, Group 2, issued monthly, contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (issued weekly), including also, however, preliminary reports of court decisions, local directories, herd-books and other annals, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains, in three separate alphabets, the titles for the entries made in Class "C," Lectures, sermons, addresses, prepared for oral delivery, which are arranged alphabetically by author; Class "D," Dramatic compositions, arranged alphabetically by title; and Class "E," Maps, arranged alphabetically by the subject word of each title.

Under the Act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "A," Class A, Books; "A- Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons, addresses, prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps. "©" implies copyright registration of a published work, followed by date of publication; "© 1 c." stands for copyright of an unpublished work, followed by date of receipt in the Copyright Office of the printed or manuscript copy; and "2 c." for two copies, followed by the date of their receipt. In the case of contributions to periodicals one copy of the issue or issues containing such contribution is required. "Reservation no." signifies the entries for foreign books made under the operation of the *ad interim* act of March 3, 1905, and "Ad int. res." implies *ad interim* copyright registration, under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

Each number contains an index of the names of *all* copyright proprietors; the names of well-known authors of pamphlets, occasionally the titles of anonymous pamphlets, and the names of all authors of dramatic compositions. The annual index, furnished with the December issue, supplies in addition the titles of all dramas and the subject words of all maps.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.50 for 1909, and \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries is published in four parts. Part 1, Group 2, issued monthly, contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1 (issued weekly), including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. The entries are arranged alphabetically by author, or, if anonymous, by title. An asterisk (*) after the author's name indicates that the author and copyright proprietor are the same. When the author and copyright proprietor are different, a separate statement is made at the end of the title, giving the proprietor and his address.

Group 2 also contains, in three separate alphabets, the titles for the entries made in Class "C," Lectures, sermons, addresses, prepared for oral delivery, which are arranged alphabetically by author; Class "D," Dramatic compositions, arranged alphabetically by title; and Class "E," Maps, arranged alphabetically by the subject word of each title.

Under the Act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons, addresses, prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps. "©" implies copyright registration of a published work, followed by date of publication; "© 1 c." stands for copyright of an unpublished work, followed by date of receipt in the Copyright Office of the printed or manuscript copy; and "2 c." for two copies, followed by the date of their receipt. In the case of contributions to periodicals one copy of the issue or issues containing such contribution is required. "Reservation no." signifies the entries for foreign books made under the operation of the *ad interim* Act of March 3, 1905, and "Ad int. res." implies *ad interim* copyright registration, under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

A list of the dramatic compositions of which the subsisting copyright has been renewed and extended under Sec. 24 of the Act of March 4, 1909, will be found following the titles of dramatic compositions in this issue. For a similar list of renewals and extensions for Books, see Part 1, Group 1.

The annual index accompanies this issue. This index contains in one alphabet the names of *all* copyright proprietors; the names of well-known authors of pamphlets, occasionally the titles of anonymous pamphlets, the names of all authors of dramatic compositions, the titles of all dramas, and the subject word of the titles of maps.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.50 for 1909 and \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.
